

Zürich, 20. Oktober 2010

company or education site  
with domicile or subsidiary  
and a simulation service  
in Switzerland

## *Eligibility for computersimulation.ch*

These are the detailed requirements for an application to [support@computersimulation.ch](mailto:support@computersimulation.ch) for an account on computersimulation.ch that is eligible.

### *Scope*

xirrus GmbH offers a specialised branch directory on **computersimulation.ch** to the swiss market mainly. Customers shall find and notice simulation services of providers in Switzerland more quickly and easier. To our conviction more local and qualitative out standing offers in this branch do exist than a typical industrial CEO is aware of. Somebody just has to tell. Therefore we clearly prefer quality over quantity and will personally verify every single application by getting in touch with the provider. We count on greater accep tancy of the offers by the whole market by doing so.

### *Membership fee for everybody*

Independent of their activity or financing, all providers pay a yearly fee for the use of this platform in the amount of **CHF 30.— excl. VAT** in advance, i.e. yearly. Neither tech nical nor financial problems make this tiny fee questionable or negotiable. No payment leads to exclusion and deletion of the contributed data.

### *High acceptance in the market by quality*

xirrus GmbH allows simulation service providers on this platform, who are challenged by the

#### ***Are you a service provider of computer simulations?***

- you are entrepreneur and own a company with domicile in Switzerland (index of commerce) or have at least one personal representative in Switzerland (home address) and an existing corresponding offer (computer simulation, numerical simulation, applied simulation) on the market for local and surrounding industries and can bring up proofs for your activities (references).
- you are a governmental subsidised provider (e.g. through federal, cantonal, SNSF, CTI, EU money) and affiliated of a public education site (e.g. a university/technical college) with domicile in Switzerland, that is supported more than 20% by governmental money and can prove its service in the meaning of applied science for the industries (references, publications).

real market. That means they do offer solutions and services to industrial customers to a high extend by their own resources. Specific definition for eligibility requirements: You are either one of the following

- **Privately owned company by private initiative**  
Eligible companies are represented in Switzerland and since their foundation are privately owned seamlessly and can prove their services in development or application of computer simulations for customers (in Switzerland).

or

- **Governmental subsidised provider of a public education site**  
Eligible providers are member of a swiss educational institute (HS/FH) with more than 20% governmental subsidiation) and do applied research for Switzerland (located projects). They register in the name of their educational institute/department.

### ***How to apply***

You announce your application interest to [support@computersimulation.ch](mailto:support@computersimulation.ch). We demand you for the following data: company/institution, department, offered services, contact person, examples of references (industrial). If your offer applies to the requirements, we agree upon your eligibility and ask you to pay the membership fee.

### ***Payment of membership fee***

After we agreed upon your membership by personal contact, please transfer the amount of CHF 30.- excl. VAT to: Zürcher Kantonalbank, 8010 Zürich, PC-Konto Bank 80-151-4

For the benefit of xirrus GmbH Konto-Nr. 1100-0480.403

Bank Clearing Nr. 700

SWIFT-Adresse / BIC: ZKKBKCHZZ80A

IBAN: CH63 0070 0110 0004 8040 3

or

PC-Konto Nr. 87-59273-0

### **VAT**

Our VAT-number is 518 521

After receipt of your payment we email you the login data for your user account for the index of providers. Please add the missing data under consideration of publication in the index of providers. You have to explicitly agree upon publication before the data is shown on the web.

Please consider using the platform to announce new software, services or references of existing simulation projects, too.

### ***Growth and benefit***

The investment in new functionality and more possibilities of such a platform are depending fully on existing personal and financial resources of xirrus GmbH. Please do show understanding that we cannot fulfill all preferences of different users at once.
